

City of Vacaville

WATER CONSERVATION REGULATIONS

Until further notice, the City has enacted Stage 2 of the City's Urban Water Shortage Contingency Plan and implemented the following water conservation regulations.

Water Waste Restrictions

- No excessive runoff from outdoor irrigation that leads to water flowing to adjacent properties, private and public walkways
- No washing of sidewalks, driveways, walkways, and parking lots except for removal of hazardous materials for public health and safety
- No washing vehicles, equipment, structures, or other items without using a shutoff nozzle
- No use of fountains and other water-using ornamental structures unless equipped with a recirculating pump

Adopted Irrigation Days

Customers are asked to limit irrigation of outdoor turf to three days per week between 6 PM and 10 AM, as shown below.

Conservation Tips

Around the House

Water Efficient Appliance	 Washing Machine	 Shower Head	 Dishwasher	 Faucets
Water Savings	up to 15 gallons per load	1 gallon per minute	up to 14 gallons per load	1/2 gallon per minute

Around the Yard

- Mowing less and planting native lawns and plants
- Utilize drip and micro-spray systems where possible
- Water for shorter periods (i.e., 5-10 minutes) over multiple cycles on designated watering days
- Allowing a minimum of 60 minutes between cycles to maximize soil and root absorption and prevent runoff
